

# Tritone

## QUALITY POLICY STATEMENT

---

At Tritone Technologies, our mission is to revolutionize metal and ceramic Additive Manufacturing to meet the rigorous standards of industrial production. We are dedicated to delivering high-quality additive manufacturing machines that redefine precision and reliability while providing premium parts manufacturing services driven by our unique technology

### OUR QUALITY POLICY PRINCIPLES:

#### INDUSTRY LEADERSHIP:

We continuously innovate to provide cutting-edge technology that exceeds industry standards.

#### CUSTOMER SATISFACTION:

We prioritize customer satisfaction, our commitment to precision, reliability, and adherence to industry standards ensures customer safety and meets their specific needs.

#### COMPLIANCE:

Adhering to CE directives and industry standards to guarantee the highest quality and safety in our manufacturing processes.

#### EMPLOYEE EXCELLENCE:

We invest in our employees by providing comprehensive training programs. We believe in empowering our team to contribute to quality at every level.

#### PRECISE OPERATIONS:

We recognize the critical importance of precise machine operations and accurate additive build materials. Our commitment to precision enables the production of high-end accurate parts, minimizing machine downtime and creating a safe working environment.

#### ESG RESPONSIBILITY:

We are committed to Environmental, Social, and Governance principles. We actively work to minimize our environmental impact, contribute positively to society, and maintain high governance standards in all aspects of our operations.

### OUR COMMITMENT:

We are committed to continually improving all processes to ensure the highest level of service delivery and customer satisfaction.

Tritone Technologies' leadership is actively involved in promoting and sustaining a culture of quality throughout the organization.

Our innovative technology is backed by sound financial management, ensuring the growth and success of Tritone Technologies.

This Quality Policy is communicated to all employees and is available to interested parties. We encourage open communication channels to address quality-related concerns and feedback.
